

Curb Appeal. These two words are often repeated during the planning stages of a residential development. Guidelines and restrictions are placed on homebuilders and owners to ensure the quality and aesthetic value of each home constructed. The shutters, trim, doors, even the lawns of each home have carefully outlined procedures to protect the value and pattern of the development. Imperial Mailbox Systems continues this careful attention to detail in this beautification and standardization process by providing the highest quality **U.S.P.S.** and **D.O.T. Approved** mailboxes and street signage.

As members of several national housing organizations, such as the **National Association of Home Builders** and the **National Golf Foundation**, Imperial Mailbox Systems has provided planned developments and communities across the United States with quality cast-aluminum mailboxes, street signage, and patio light poles. Our selection, illustrated in this catalogue, is designed to complement and standardize all of your curbside and traffic sign needs. All of our products are rust-free and are Postmaster and Department of Transportation approved.

It is our mission to serve you by providing U.S.P.S. approved mailboxes, and matching D.O.T. approved street signs. Leading the industry, Imperial has proven itself through partnerships with both organizations, and have a proven ISO 9001:2000 compliant system to continue to improve our products, services, and customer satisfaction.

Contact our customer service department today at **1-800-647-0777**, or visit us online at **www.imperialmailboxsystems.com**, for more information about how Imperial products are right for your project, or to find more information about U.S. Postal or D.O.T standards and requirements. Give yourself the opportunity to realize the added value of your development's curb appeal with mailboxes, street signs, and light poles from Imperial Mailbox Systems!
